CANTERBURY CATHEDRAL.

Only One English King, Henry IV., Has Been Entombed There.

The ancient cathedral at Canterbury shelters the remains of only one English king, Henry IV. That this particular monarch should have been entombed there is the more remarkable since he breathed his last in the Jerusalem chamber of Westminster abbey, and it might naturally have been supposed in the circumstances that he would have been laid to rest in the abbey, where so many other of England's kings sleep their last sleep. It seems, however, that Henry before his death gave orders that he was to be buried in the cathedral at Canterbury opposite the tomb of his uncle, Edward, the Black Prince.

For hundreds of years a story was current that on the way down the river a hurricane arose and that the people on board the vessel, convinced that the storm was caused by the fact that a king's body was on board, cast the corpse into the water in the dead of night and, filling the coffin with rubbish, brought it with all pomp and circumstance to the cathedral. Some years ago the dean and chapter resolved to get at the truth of the story.

So they opened the royal tomb and the king's lead coffin. For one brief moment dean and chapter gazed upon the kingly lineaments of that monarch whom Shakespeare describes as "sky aspiring Bolingbroke." Only for a moment, however, as the body crumbled to dust almost at once. But Canterbury now knows beyond all doubt that an English king rests within its walls.

DID HIS BEST.

He Brought the Only Cant Hook That He Could Find.

If the report of the Fulton Gazette is true a Missouri farmer, accompanied by several of his hired men, went into the woods one morning in the fall of the year to cut down some trees. When about to begin work it was discovered that the cant hook had been left behind. Turning to one of the men, an Irishman not very long over, the farmer instructed him to drive back to the barn for the missing tool. The Irishman did not know what a cant hook looked like, but was averse to exposing his ignorance, so drove off on his errand, trusting to find some one at the farm who would enlighten him.

At the barn, however, there was no one to help him out of his dilemma. Casting his eyes about the place for the thing that would be most likely to bear the name of "cant hook," he saw a mulley cow with never a sign of a horn upon its head and concluded it was what he had been sent for.

Procuring a rope he fastened the cow to the rear end of his vehicle and exultingly drove back to the woods.

"What the Sam Hill have you got there?" shouted the farmer on seeing his messenger and the cow. "I sent you for the cant hook to use in moving the logs. What have you brought that cow for?"

"Be jabers, boss, divil another thing could I see around the barn that can't hook but this."

Her Rest.

"So Mrs. Cadderly took the rest cure?"

"Did it cure her?"

"No, it didn't do her a bit of good. She's just as anxious to rest as she always was."—Omaha News.

BURIED BANK BILLS.

They Had Almost Crumbled to Dust, but Were Redeemed.

The money counters in the United States treasury were startled one day, says Theodore Waters in the November Everybody's, by the appearance of a remarkable looking fat man who entered the department and told a strange tale. He said he was an Ohio farmer and did not believe in banks, and so had buried his money in the ground for safe keeping. He had dug it up and was horrified to find that it was slowly turning to dust, as notes will when long buried.

Panic stricken, he gathered the disintegrated money into an old pillowcase, bound it around his waist beneath his clothes and started for Washington. He traveled part of the way on horseback, part of the way on an Ohio river steamboat and part of the way by train. During the journey he never once took off the pillowcase. He even slept with it on. The officials of the treasury department found it difficult to make him part with it.

He did not want to go with a clerk to a hotel for fear the clerk might rob him, but as it was manifestly impossible for him to disrobe in the office he had finally to submit. They got the money at last, and the condition of it was so bad that the treasury expert had to be called to decipher it. So great was her skill that the farmer lost only a few hundred dollars out of $19,000.

EARTHQUAKES.

Theories to Account For These Upheavals of the Earth's Crust.

A scientist who has made a special study of earthquakes says: "Let us imagine the influx of the sea into one of the fissures formed in the earth's crust. On coming into contact with molten matter it would instantly be changed into gaseous steam, expanding to more than 18,000 times its original bulk. This would press with enormous force upward upon the crust of the earth and downward upon the surface of the liquid lava. If there were then no vent for the lava to escape an earthquake would result."

There are other ingenious theories which have weight, such as that of Davy, who when he discovered the metallic bases of the earths and alkalis conceived that water may penetrate to these metals if they exist underground in an unoxidized state and so set free sufficient gaseous matter to cause an earthquake. Shrinkage of the earth's crust is also to be taken into account.

CLIMBING SERPENTS.

The Method by Which They Glide Up Smooth Surfaces.

Serpents can easily climb a smooth wall. "I have often seen them do so in Central America," says a traveler, writing to a journal published in Rome. "I watched a little one, whose bite is fatal, climb up a canvas stretched taut between two snakes. On reaching the top the reptile curled itself round a handglass, and I killed it with a cane."

A serpent is to be seen in almost any zoological garden which makes no trouble of climbing its glass case. This is how it sets to work: Stretching itself up the glass for about four inches, it discharges from its glands a quantity of viscous matter which serves as an adhesive liquid to hold and support its body long enough to enable it to thrust itself up a little higher, when the process is repeated.

In warm climates this mucus is very thick and glutinous, so that by its aid even heavy serpents can glide up perfectly smooth surfaces.

NURSING MOTHERS

"A richer milk than milk" is good food for nursing mothers. Scott's Emulsion is the rich cream of cod liver oil, and contains ten times as much cream as milk does.

The nursing mother must eat with the purpose of producing good, nourishing milk for her baby. A little Scott's Emulsion is often a very wise addition to her daily diet. If through nervousness or weakness her milk is a failure, Scott's Emulsion will help make it a success.

The baby gets the benefit, too, when the mother takes Scott's Emulsion. The same remedy brings new strength and nourishment to both.

TOWN COUNCIL.

W. C. Dodge Gets the Contrac to Lay Sewers on Two Streets.

Joseph Rodgers, who conducts a saloon in what is known as the Ford property on A and First street, petitioned the city council Monday night for permission to move his place of business to a building to be erected on the corner of A and Fourth street. Rodgers stated in his petition that the property at present occupied by him had recently changed hands and that he was obliged to vacate.

Foley moved that the petition be granted. He was seconded by Luscher and the motion carried, Walker and Littlejohn voting no. Rodgers' new location will be on the corner owned by John Hanley, opposite the depot.

A contract between W. O. Dodge and the town, by which the former agrees to lay certain sewers and laterals on Maple and Cassia streets at a cost of $168.30, in accordance with his bid at the last meeting, was presented for approval. Mr. Dodge's bondsmen are A. Cook and E. M. Hansen, who qualified in the sum of $100 each. The contract and bond were accepted and authorized to be signed by the chairman.

Attorney Kincaid stated that Mr. Holder, whom he had notified, on the board's order, to connect with the sewers, had informed him that he had taken steps to comply with the wishes of the board but that the period allowed him—10 days—in which to complete the work was too short. He requested an extension of time.

Some of the members were in favor of granting the request and a motion was made by Foley that Mr. Holder be allowed an additional two weeks, but it was lost by the negative votes of Littlejohn, Walker and Havey.

Frank B. Bailey, a prune grower of Santa Clara county, asked that a license be issued to him to peddle prunes about town. He stated that he had rented a building and had a fixed place of business.

The Marshal said that Bailey was selling his product and when asked where he hailed from gave evasive and unsatisfactory answers. He refused to pay the prescribed tax of $25 and had since rented a place for a few days for the purpose of getting the benefit of the lesser license of $2 per quarter.

It was decided that it would be unjust to local dealers to grant a merchant's license to Bailey under the circumstances, and his petition was therefore denied.

At the conclusion of the regular business the board met in conjunction with representatives of the different companies and elected the following officers of the Fire Department:

Chief—J. N. Winter.
First Assistant—Al Lowe.
Second Assistant—F. P. Kearse.

Chief Winter stated that the city's fire alarm system had been burned out by the Electric company, but that he understood the corporation was willing to repair the damage should the board order it done. At his suggestion the clerk was disected to notify the Light company to place the system in good order.

It is more thon probable that during the repairs of the streets Stambaugh street will be run through the school yard and connected with Washington street at the Congregational church. If this should be done the two would make one continuous avenue over two and a half miles in length, extending from the commons east of town to the foothills in the west. It would not only make a beautiful thoroughfare, but would also lighten the heavy traffic that Bridge street has to stand.

The marriage of Miss Clara Crowe, daughter of Mr. and Mrs. James Crowe; of this city, to Mr. Charles H. Herrington of San Francisco, was the one social event of the week. Loving hands had made the home of the bride a very wilderness of smilax, red berries and mistletoe. Promptly at six o'clock the Rev. Charles C. Kirtland pronounced the words which made the happy couple man and wife, and after an elegant repast Mr. and Mrs. Herrington departed on their wedding trip to Santa Cruz. BY LEAPS AND BOUNDS.

The Star of Prosperity Glitters Over Redwood and Vicinity.

It is an old sayiug that "A prophet never lacks honor save in his own country."

It now seems that the utility of the marsh lands which have lain dormant in front of Redwood City since the beginning of time are coming to the fore by leaps and bounds.

The Frank Tanning Company has been shrewd enough to realize the advantage of the deep water navigation and has built up a big plant based on it; but it has only been within a couple of years that anyone else grasped the idea.

The Redwood City Salt Company were next in line; and that they have come to stay is evidenced by the thousands of tons of salt piled on their marshes.

The plant that the Alaska Codfish Company built sprang up like a mushroom in the night, and they are already employing steadily in the neighborhood of fifty men and will probably double their capacity within a year. A dredger with a large crew of men is plodding away cutting ditches and throwing up levees for the drainage and protection of the land and have work ahead of them more than they can take care of.

We have authentic information that a boat-building plant has purchased a site in that neighborhood, and proposes to put up a big plant together with shipways for building, docking and repairing quite large vessels.

We do not have to go very far to find the cause of all this; it lies in the fact that Redwood City creek is the only channel, from the Golden Gate south along the bay, of sufficient depth to accommodate deep water vessels; and that manufacturing institutions of the character that require water frontage, are being crowded out of the neighborhood of San Francisco by the extension of the seawall, which cuts out their water frontage, and by the enormous increase of the value of property, together with the fact that the rapidly improving steam and electric car service is bringing San Mateo County practically within the bounds of San Francisco.

The rapid transfers of property on our water front within the past two weeks indicate that these facts are beginning to be realized.

A few years ago lands in San Joaquin County that were worth $1 per acre, were, by the discovery of oil, made, within a few months, worth thousands; and it looks now as if the same result, due to the development of the utility of our water frontage, is likely to be accomplished in our midst.

Let her go! Redwood City can stand it.

ROBERT I. KNAPP.

Sudden Death of the Halfmoon Bay Pioneer.

R. I. Knapp of Half Moon Bay died at his home Thursday evening. He was taken ill, and at 11 o'clock that evening passed peacefully away in three hours.

Robert I. Knapp was born in Sullivan county, N. Y., in 1833, and as his father was a miller he learned the trade of turner and worked in his father's lumber mill. also learning the trade of carriage maker. Having arrived at an age when he felt that his judgment could not be questioned he decided to try his fortunes in the West, and in 1862 he came to California by way of Central America. On reaching San Francisco he at once set out for Bloomfield, Sonoma county, where he remained for some time doing fairly well, but was not yet satisfied, for he knew that somewhere in this great West a fortune awaited him and he was determined to find it. In 1871 he took up his residence in Half-moon Bay, and from that time on his progress was steadily upward. He was a very prominent man in the community, for his fellow citizens always found him ready to assist in any movement that had for its end the welfare of the city.

As a young man he belonged to the Know-Nothing party, but afterward became a Republican. He served ably as a Justice of the Peace in Halfmoon Bay, and was appointed a commissioner for San Mateo county at the Midwinter Fair. Fraternally he belonged to Hayward Lodge, No. 226, F. & A. M., and to Ocean Lodge, No. 62. Good Templars. Religiously he has been a member of the Methodist Episcopal church since 1850. When the church at Halfmoon Bay was built in 1872, at a cost of $4000, it was largely through Mr. Knapp's efforts, and he gave considerable financial aid toward the cause.

In New York, July 16, 1850, Miss Elizabeth Misner became the wife of Mr. Knapp, and the birth of nine children blessed the union, five of whom are living: Louise, the wife of J. C. Perry; Horace Greeley, who was connected with his father in business; Emmeline, the wife of George Gregory; Rosabelie, the wife of G. W. Schafer, and Charles H., who married Miss Ann Broom, and is engaged in an oil refinery. After the death of his first wife Mr. Knapp married Miss Lizzie Clark, who survives him.

Quong Fong Lee, a desperate highbinder, was arrested here Monday by Deputy Constable Hill. He committed a vicious assault upon a fellow countryman at San Jose last Sunday and fled to this place. For some time past there have been numerous complaints from residents of this place who raise chickens for their own use, but whose hen roosts have been visited nightly, greatly diminishing in numbers choice poultry. A certain young man in town was suspected, and he might have been severely dealt with if it were not for the discovery made by Constable Hill Saturday night. With several deputies he descended upon the old Guerin house, near the county road, and found seven hoboes engaged in cooking a dozen chickens, presumably stolen from neighboring hen roosts. After some struggle the tramps were arrested and taken to Redwood City. The place has been a rendezvous for "Weary Willies" for some time. The raid of Officer Hill will rid the community of a gang of petty thieves, and owners of choice Brahmas may now rest easier.

A very pretty wedding took place in Sacred Heart Church, San Francisco, Wednesday, when Thomas P. Maloney and Miss Moore were united in marriage. Father Fleming officiated. After the ceremony the bride and groom were driven to the home of the bride's mother, where a wedding breakfast was served to 150 guests. John E. Maloney acted as best man, while Kitty Gorham attended the bride. Mrs. Maloney is a charming young woman, the possessor of a pleasing and delightful personality that makes and holds friends of all whom she meets. The fortunate groom is a young man of steady habits, popular with all and worthy of the young woman he has chosen for a life partner. Mr. and Mrs. Maloney have gone to Los Angeles for the honeymoon, and will return on Christmas Day and will reside at 60 Haight street. They have the best wishes of their many friends for a long and happy wedded life.

DEATH OF JOHN MONOHAN.

John Monohan is no more. He passed away early Wednesday morning at his home at University Heights, where he had resided for upwards of a half century. The news of his death proved a shock to the community, for he was a strong man, fond of outdoor exercise, and always appeared to be active, robust and healthy. He was here Tuesday and appeared to be in the best of spirits, and returned that evening in apparent good health. His devoted wife, noticing his failure to arise at the usual hour, went to his room to awaken him. To her amazement she discovered her husband dead. He must have passed away while he slept.

The death of Mr. Monahan is a public loss. Never had this community more need of men like him, men of enterprise and progress and ideas; men of broad views, honest, industrious, always looking for the greatest good to the greatest number. John Monohan was a big-hearted, generous man. His hospitality was generous, open-hearted and sincere. He delighted to entertain his friends. Nothing was too good for them. He was the soul of good nature, always having a word of encouragement and a genial smile. His hopes were ever buoyant and cheerful. It was the sunshine of enthusiasm that permeated all of his undertakings.

He was a jovial, jolly man, and nothing pleased him more than having a crowd of children about him.

Mr. Monohan was one of San Mateo county's best known pioneers. He was an honest farmer, respected by all who knew and had dealings with him. Mr. Monohan had been a resident of University Heights for upwards of fifty years. He came to California in 1852, and after successfully engaging in mining for four years settled in this community in 1856, and has always been active in the affairs of the county. In 1882 he was elected Supervisor of the Third Township on the Democratic ticket, serving the district for one term with credit to himself and his constituents.

Deceased was a native of Ireland, aged 76 years. Besides his wife, he leaves to mourn him two stepdaughters, Mrs. E. F. Fitzpatrick of Redwood City and Mrs. John Solen of San Francisco, and a stepson in Ireland. He was a man of keen instincts and fine intelligence. No higher tribute to his character can be paid than to say that those who knew him best liked him best.

The funeral took place yesterday morning. The Church of the Nativity was crowded by sorrowing friends and relatives of the deceased. A special choir from San Francisco sang a solemn high Mass. The remains were laid in their last resting place in Holy Cross cemetery under the shadows of the deceased's old home where he had resided for nearly fifty years.

The pall-bearers were Simon Saunders, James Murray, James Hannon, James R. Doyle, Michael Lynch, Michael Rafferty.

MORE RAILROAD TALK.

O. A. Hale of San Jose Interested in the Project.

A. O. Hale, who is promoting an electric railroad from San Jose to San Mateo, in an interview at San Jose said, in reply to a query as to the possible competition between his company's line between San Mateo and San Jose, and between San Jose and Alum Rock Park:

"I don't see how our lines can conflict in any way; I don't think they will hurt us or that our line will interfere with them. They will handle a different business from our lines; ours is a foothill system chiefly and theirs is a valley system, and we shall draw from different regions. I certainly have no desire to interfere with the business of any other line."

After remarking that the plans of the Interurban company included from the first further development of electric roads through the valley, Mr. Hale expressed the conviction that there is room for a system of a hundred miles of railroad in the valley, saying that while the cost of construction and equipment for that much would be correspondingly greater than for a system of thirty miles, the expense of management and operation would be very little increased.

"Tomorrow," said he in conclusion, "the short line to Los Gatos goes into operation, and you may state that some reduction of rates on portions of the system is intended to be made after the first of the year."

Mr. Hale intimated that work on the road in the county would be commenced after the first of the year.

Captured At Burlingame.

Deputy Sheriff McNabb of San Bernardino county arrested Sidney Jarvis and Arthur Swindell at Burlingame Tuesday for the robbery of a Santa Fe express car and the murder of Evan O. Roberts, the Wells, Fargo messenger, which occurred on the night of December 4 near Daggett. They were in the car ahead of the express car with an assignment of polo ponies for Burlingame. The two men were taken to San Bernardino on Wednesday, where their preliminary examination will be held. It is said that the evidence against them is very strong.

Settled by Stipulation.

In the suit of the Standard Electric Company vs. Thomas Seale et al, a stipulation has been filed in the Superior Court of Santa Clara County by W. Goodfellow for the plaintiff and Nicholas Bowden and W. A. Bowden for the defendant Seale, and by Tobin & Tobin for the defendant the Hibernia Savings and Loan Society, agreeing that all motions for a new trial shall be dismissed and that final order of condemnation may be entered.

Shooting Affray At Pescadero.

Henry Pease, formerly of Redwood City, was shot last Sunday at Pescadero by Tomasio Hill. The affair was the result of a grudge which Hill had for Pease. Part of Pease's hand was shot off, and thirty-six shot were taken from his groin. He is in a critical condition. Hill is at large. Pease is a young man who did not have the most savory reputation around here, as some two years ago he was arrested for holding a man up near the depot.

Kellogg Residence Burned.

At about midnight of Saturday last the handsome residence of M. B. Kellogg at Laurel Creek was burned to the ground. Mr. Kellogg, who is the attorney for the Spring Valley Company, was away with his family at the time, the premises being in charge of the hired man. The origin of the fire is unknown. The loss on the building and furniture will approximate from $12,000 to $15,000.

A Coast Teacher Weds.

The County Clerk of San Francisco issued a marriage license Tuesday to Martin V. Joseph and Miss Lenora L. Cardoza, both of Halfmoon Bay. For the past two years Miss Cardoza has presided over the destinies of the Pilarcitos school near Spanishtown. Mr. Joseph has resided in Halfmoon Bay for a number of years and is a very popular young man.

Theatrical Attractions.

The Majestic Theater, at San Francisco, will present the latest Eastern melodramatic success, "Jim Bludso," as a change from the usual run of productions as next week's attraction. While of the melodramatic type the play is of the highest order, and is founded on the three popular and widely read poems by Hon. John Hay, Secretary of State, and entitled "Little Breeches," "Jim Bludso," from which the name is derived, and "Banty Tim." An entirely new type of character peculiar to the Mississippi river is depicted in the play which owes its origin to I. R. Morris, who is also the author of Nat Goodwin's latest success now playing in New York and entitled "The Usurper." The conditions of the production are such as to admit of the highest scenic elaboration and affords unlimited opportunity for the members of the cast to display their versatility. Both Howard Gould and J. H. Gilmour figure in the leading roles as also the other clever members of Oliver Morosco's exceptional stock organization. Hoyt's "A Contented Woman" ill be the offering at the Majestic theater during Christmas week, to be followed by the Mansfield success, "In Old Heidelberg."

Christmas Shopping.

The "Dull Times" have not struck us yet is certain, for Christmas shoppers are thronging the streets and filling the popular stores. Messrs. Shreve & Company's of San Francisco, is a marked example of popularity. Their store is crowded early and late for their patrons realize that within the limits of their place the "gift-giving problem" is easily and simply solved from the fact that they carry a limitless stock of inexpensive and elegant examples in gold and silver jewelry, with departments for leather goods, stationery and objects of art. The attention customers receive is invariably intelligent and courteous and the facilities afforded in the way of delivering goods in the right way at the proper time adds to the satisfaction of dealing with Messrs. Shreve & Company, Post and Market streets, San Francisco.

The Winter Route East.

When you think of going East, think of the Texas & Pacific, the true Southern Route, as it is called.

We can plan for you an ideal Winter trip through the fertile San Joaquin Valley or down the picturesque coast line of the Southern Pacific via Los Angeles, journeying through the beautiful orange and olive groves of Southern California, getting a glimpse of the Old World civilization of Old Mexico en route and on through the cotton fields of Southland.

Pullman and tourist sleepers to St. Louis and the East; a new and excellent dining car service—meals a la carte; stop-overs to visit the famous Hot Springs of Arkansas if desired.

For rate quotations, sleeper reservations, and all information about your trip address or call upon Mr. W. J. Shotwell, General Agent, No. 625 Market street, San Francisco. It's not a bit of trouble to answer all your questions.

Death of James A. Robinson.

Word was received here yesterday of the death of James A. Robinson, which took place in San Jose Thursday morning. Mr. Robinson had been ill for the past two years, so that the news of his demise did not come as a shock to his friends as it otherwise would have. He had removed to San Jose two years ago because he could not stand the rigorous climate of San Francisco.

Mr. Robinson was a handsome man, in the prime of life. As a very young man he married Miss Caroline Hawes, daughter of the late Horace Hawes, and one of the handsomest ladies who ever grew to womanhood in this county. For a number of years they resided in Redwood, but since the fire which burned their beautiful country home here, they have lived elsewhere.

Case On Trial.

The election contest of James T. Casey against Julius Eikerenkotter was commenced in the Superior Court Wednesday. The ballots of Baden precinct were recounted, with the result that Mr. Casey gained six votes on Mr. Eikerenkotter, reducing the latter's plurality one vote. The case was continued until yesterday afternoon. There were twenty witnesses present to testify, but they were not called. Attorney Easton, for the defendant, desired to show by the witnesses that they voted the Socialist ticket and for Mr. Casey for Supervisor, and only a few ballots showed this, when there should have been 20 or 25 such ballots. He contended that the ballots were substituted. Judge Buck held that this would be impossible under the present system of voting. The Court said that in his opinion the election officers of Baden precinct used extreme care in counting and rejected eleven more votes than he did, showing how cautious they were. The Judge paid the board a high tribute.

The case will go on next Thursday afternoon, when the matter of admitting further evidence will be argued.

A Valuable Acquisition.

Miss Van Reynegom of San Francisco, whose selections on the violin delighted the audience at the Native Daughters' entertainment Saturday night, will henceforth be identified with the Redwood City as a member of the local orchestra, taking the place of Miss Clara Crowe, who was married Thursday. As a violinist, Miss Van Reynegom is recognized as an artist. She is also qualified to give lessons on this graceful instrument and will be pleased to organize a class here. Those who desire to take instructions from her should apply to any member of the orchestra for particulars.

Salt manufacturers of the State are in a happy mood. They have settled their differences this week, and as a consequence the price of salt is advancing rapidly. The local salt companies will dispose of this year's crop very soon at good prices.

THE GREAT FAMILY MEDICINE

Thedford's Black-Draught comes nearer regulating the entire system and keeping the body in health than any other medicine made. It is always ready in any emergency to treat ailments that are frequent in any family, such as indigestion, biliousness, colds, diarrhœa, and stomach aches.

Thedford's Black-Draught is the standard, never-failing remedy for stomach, bowel, liver and kidney troubles. It is a cure for the domestic ills which so frequently summon the doctor. It is as good for children as it is for grown persons. A dose of this medicine every day will soon cure the most obstinate case of dyspepsia or constipation, and when taken as directed brings quick relief.

DANVILLE, ILL., Dec. 23, 1902.

Thedford's Black-Draught has been our family doctor for five years and we want no other. When any of us feel badly we take a dose and are all right in twelve hours. We have spent lots of money for doctor bills, but get along just as well with Black-Draught. IRA H. BADER.

Ask your dealer for a package of Thedford's Black-Draught and if he does not keep it send 25c. to The Chattanooga Medicine Co., Chattanooga, Tenn. and a package will be mailed to you.

When a Man Tells You That a Bad Case of Piles Can Only Be Cured by a

cutting operation, he may mean well but he is mistaken. In this era of advanced science it is A SHAME TO CUT ANY CASE OF PILES. Our method—the new way—of curing piles robs the old surgical way—still urged—of all its terrors and brings about results more effective because it is more radical and permanent. It obviates the tortures and distressing after-effects of surgery and is without failure, pain, danger or hindrance to daily pursuits. The treatment can only be applied by a competent physician, occupying but a few minutes' time. We have cured nearly 7000 men and women with method. Many of these cases were of 20 to 40 years standing, names of whom will be sent for quiet investigation. Also, without surgery cure Fistulas, Fissures, ulceration, etc. For particulars address THOS.
